

SPUTNIKS LTD.

FOUNDED

in **2011**

[Grant received]

CORE OF THE INNOVATION

Developing products and solutions for small spacecraft weighting 10 to 50 kg, as well as developing technologies for fast and inexpensive small spacecraft construction.

IMPLEMENTATION OF THE INNOVATION

ALREADY IN **2014–2015**

ПЕРСОНАЛИИ

HEAD OF THE PROJECT:

Vladimir Y. Gershenson

TECHNICAL DIRECTOR:

Stanislav O. Karpenko

GENERAL DIRECTOR:

Andrey V. Potapov

Peculiarities of the product

The main feature is using a standardized, universal approach at designing small spacecraft and launch interfaces. Unique is the opportunity to assemble and adapt small spacecraft platform for the client's needs at a short notice, to integrate launch interface with a carrier rocket and fulfill the launch.
