

A photograph of a busy exhibition space. In the foreground, a man in a dark jacket and light shirt is talking to a woman in a dark coat. To their right, a man in a grey sweater is sitting at a wooden table, looking at papers. Another person is sitting on a wooden bench next to him. In the background, several other people are standing and talking. The walls are covered with various posters and information. The floor is blue.

14 September 2012

By [John Morgan](#)

The number of mainstream students set to start higher education courses in England this year is down 62,000, or 17 per cent, on last year's figures, analysis by *Times Higher Education* suggests.

The Universities and Colleges Admissions Service today published data for its 2012-13 study that give a bigger drop than previous figures, which included

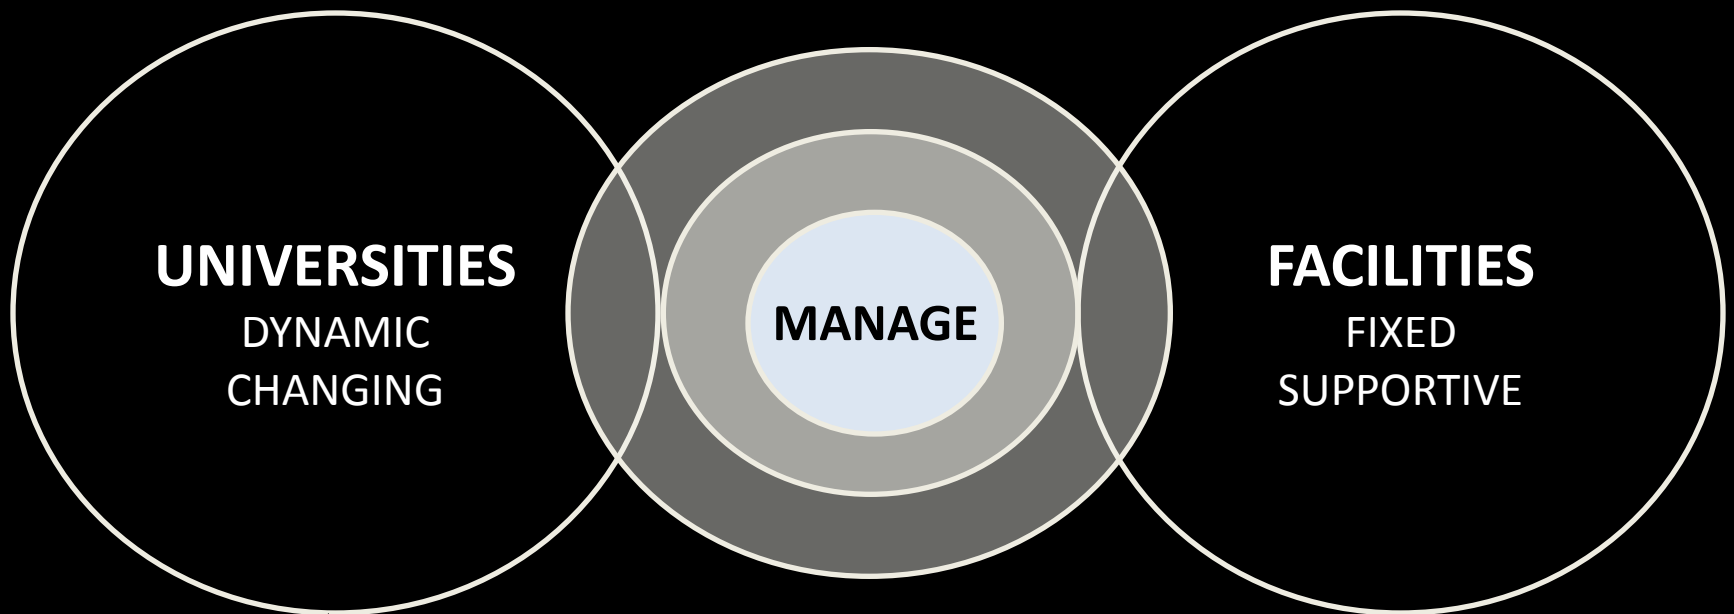

It is the first time Ucas has published such figures among universities about the fall in student numbers.

The latest figures show a significant fall in student numbers. Funding for higher education is under pressure from the government's A-level

17% drop

# Facilities should be supportive

Manage both space need and use
